

please reject NAB petition 04-160 that affects xm-satellite radio's ability to provide local traffic and weather. This is a wonderfull product that allows you to check weather if you are leaving town without having to wait for the weather channel to get around to the travel forecast. The area I live in doesn't have good radio stations and the ones that are here have poor reception so XM is a godsend.
thank you for your time,

Cy Jervis
